Rim Cleaner

Rim cleaner alkaline, viscous

Powerful highly alkaline rim cleaner with excellent dirt absorption and cleaning performance on the basis of a special dirt carrier for all alkali-resistant aluminium and steel rims. Burned in brake dusts and environmental dirt are removed quickly and thoroughly. The viscous setting leads to long adhesion and interaction. With water repelling effect and gloss additives. Free from organic complexing agents and phosphates. With Daimler approval. Quick-separating. Reaction time max. 1 min, maximum application concentration 1:20

Areas of use

Steel rims and alkali-resistant painted aluminium rims.

Recommendations for use

Depending on the dirt accumulation, apply a 1:4 to 1:10 solution to the whole of the rinsed rim (avoid running). Allow to react for a short time, if required finish off with a brush and rinse off thoroughly with a high-pressure appliance.

Container

25 kg
200 kg
1000 kg
ph-Wert: 13,4

Warnings

Do not use on surfaces sensitive to alkalis such as polished aluminium, chrome, etc. Do not use on hot surfaces. Do not let dry. Before using, check suitability and compatibility.
